

Letter Sorts

LETTER SORTS

The pages are set up so the child can first differentiate between first only two letters, then three, and finally four. The two letter sort gives the young child the success they need to become confident and the four letter sort gives the older child enough of a challenge to really make them think (such as the b,d,p,q sort).

These worksheets are great for helping a child who is just learning letters. Or they make a great review for the child who knows all of his/her letters.

Once the child has been shown how to complete the first sheet, s/he should be able to complete the rest independently. These worksheets can be used during phonics, reading, writing, or center time!

Here is the breakdown of pages:

- 6 – two letter sorts
- 11 – three letter sorts
- 13 – four letter sorts
